- **DOCUMENT NAME: METHODOLOGY FOR ESTIMATING CARBON REMOVALS AND STORAGE IN VEGETATION**
- **VERSION: V1.0**

COMMENTS:

No.	Section	Comment
1	III.2.1	The names of the different carbon pools do not refer to pools of exclusively plant origin. For example, without further precision, belowground biomass does not correspond to root biomass. It is clearly stated in the title of the section that only the plant part of the biomass is considered in the storage of C, but a more precise designation of the C pools may be relevant (belowground vegetal biomass, aboveground vegetal non-woody biomass...
2	III.2.1	Carbon pools denomination : without further precision, Deadwood is included in Aboveground woody biomass
3	III.2.1	P8.line 9 : wrong table reference: Table 5 (?) instead of table 3
4	III.2.2	P8 . From year 6 to... line 4 : 'They size of the plot...'
5	III.2.2	P8 . From year 6 to : add parameter : Number of individual by species
6	III.2.2	P10 line 6 : wrong table reference: Table 5 (?) instead of table 3
