## TYPE AND FORMAT OF THE INFORMATION NEEDED

Prior to the consultation sessions, was project information sent to stakeholders?

- ☒ Yes  
☐ No

*If yes, please detail what information was shared and the channels you used.*

# Local Stakeholder Consultation Results

Due to the private ownership of the land, the project was widely discussed both with the landowner and with the representatives of Regeneration Academy, who operate in the area. The collaboration between the parts spans from 2021 until the present.

## LOCAL CONSULTATION SESSION

How many local consultation sessions were held?

>5

What type of sessions were held?

☐ Public event

☒ Formal meeting

☒ Informal meeting

☒ Workshop

***Describes the dynamics utilized and the topics covered in brief.***

Formal meetings happened between the landowner and the project developer. Informal meetings, calls and emails have been happening on a regular basis since 2021. Furthermore, Camp Altiplano, through Regeneration Academy, holds workshops with volunteers to plant the trees. This can be seen both in the previous links (Life Terra's website) and in the regeneration academy website. The topics covered in these meetings were the species selection, the number of plants, the distribution of these, the location of the plantings and the maintenance needed for proper survival.

## CONSULTATION RESULTS

***Describes the main results obtained from the Local Stakeholder Consultation.***

# Local Stakeholder Consultation Results

The main result of the meetings was the final planting plans. This is shown as the plantations were carried out successfully, both with volunteers and professionally.

Were there any unfavorable opinions about the project?

☒ Yes

☐ Not

If yes, please describe the negative comments received from local stakeholders and indicate whether they were resolved or not.

Was it solved?

Yes    Not

Detail comment

Due to extreme drought conditions in 2024, the maintenance of the plants had to be re-discussed. It was stated that irrigation needed to happen more often from the side of the landowner, and the project developer would make for the dead plants with new saplings after the rainfall returned.

Was a channel established to maintain communication with stakeholders?

☒ Yes

☐ Not

# Local Stakeholder Consultation Results

*If yes, please provide details.*

Constant contact through email, calls and yearly visits from Life Terra's representatives to the plots.

## DISSEMINATE CONSULTATION RESULTS

*Please share photographic evidence of the activities carried out (You can copy and paste the photo).*
